

Dear Corporate Partner:

The student branch of the Institute of Electrical and Electronics Engineers Computer Society at The University of Texas at Austin offers its sincerest gratitude for your consideration of a corporate partnership.

The IEEE Computer Society exists to serve as a unifying factor between students, faculty, and industry. We concern ourselves on equipping our fellow students with skills and knowledge that are not taught in class but are still vitally important in the competitive corporate world. Our society members include prospective engineers interested in a variety of subjects ranging from computer architecture and design to embedded systems and software engineering.

Our society aims to provide a meaningful experience both for our members as well as our corporate partners. As such, we have categorized our planned events into four classifications. Each event classification has a different scope for the event and has various benefits for our corporate partner. The cost of the event goes towards procuring food, advertising, raffles, equipment rental, and more. We lastly ask that all material presented at the event be approved by the IEEE Computer Society at least three weeks in advance of the event.

Our organization has traditionally conducted several technical, social, and competitive events and participated in many larger campus-wide activities throughout the year. In the upcoming semester, we intend to be even more involved by expanding the scope of our events. We have four types of events planned for students to gain industry insight and to network. In this packet, you will find information outlining our various events for our upcoming year. Subsequently, you will also find a corporate partnership request form that you can fill out and email back to me if you are interested in supporting any of our activities.

In order to foster a closer relationship between our members and our corporate partners, this year we are continuing the Tier Plus Program! Taking part in this program will include added benefits for our supporters, which will be evident outside the scope of their events, as described in the table below. This way, your involvement with our organization will be remembered long after the event has taken place. Once again, thank you for your interest, and we look forward to working with you.

Sincerely,

Karthik Konath
President, IEEE Computer Society

Event Description

Networking Event	Tier 1	An informal meet & greet networking event formatted in a manner that is up to the Corporate Partner (including, but not limited to, a Lunch & Learn, Coffee Chat, etc.).
Social Event	Tier 1	A social event, held towards the middle of the semester, designed to facilitate interest in the IEEE Computer Society and the Corporate Partner. Formats include (but are not limited to): LAN parties, movie nights, board game nights, etc. The Corporate Partner may provide prizes if desired.
Corporate Technical Talk	Tier 2	Traditionally, these talks will take the form of technical presentations, extended Q&A sessions, and lectures on topics pertaining to industry. The topic of the event should remain inside the reasonable bounds of educational material.

Corporate Partnership Request Form

Company name: _____

Representative Contact Information
